

## National Immigration and Customs Enforcement Council

### National Immigration and Customs Enforcement (ICE) Council Announces Endorsement of Martha McSally for Senate

FOR IMMEDIATE RELEASE  
NOVEMBER 1, 2020

Today, National Immigration and Customs Enforcement (ICE) Council President Chris Crane released the following statement after the National ICE Council officially endorsed Martha McSally for the U.S. Senate in the State of Arizona:

*“On behalf of the men and women of the National Immigration and Customs Enforcement (ICE) Council, we are proud to give Martha McSally our full and complete endorsement for the U.S. Senate.*

*Like many of our members, Senator McSally is a veteran who has dedicated her life to serving our great nation. She truly knows what it means to fight for our country, our institutions, and our laws, and we firmly believe that she should continue to take this fighting spirit back to the Senate.*

*When it comes to defending and supporting the brave men and women on the frontlines keeping our communities safe, Martha McSally is second to none. Unlike politicians on the left who are beholden to the radical left’s demands to ‘defund the police’, Senator McSally actually believes in the rule of law, and has spent her life standing up for it. Because of her principles, she has earned the total respect of the National ICE Council and law enforcement everywhere.*

*While most Members of Congress just talk about their principles, Senator McSally actually has the record to back hers up. She has worked tirelessly to improve public safety and has been a leader in getting those in Washington to actually secure our borders and ensure our immigration laws – as passed by Congress – are enforced.*

*At a time like this, we need problem solvers in Congress who will bring forward commonsense solutions to address America’s public safety and national security challenges. Senator McSally has proven she is that leader and is willing to work across the aisle to fix these problems, without worrying about who gets the credit. Sadly, this kind of mindset and leadership are rare nowadays, but in the case of Martha McSally, it demonstrates her true character and desire to do what’s right.*

*The National ICE Council staunchly supports Martha McSally and we know that Arizona and America will be safer with her in the U.S. Senate.”*
